How much of the syllabus for each course/lecture/seminar of the semester did you study?

Expectation and experience of courses/lectures/seminars - I think the courses/lectures/seminars covered the semester's learning objectives

I felt well informed about semester activities, including syllabi and planning of the semester activities was satisfactory

The planning of the semester activities was satisfactory (e.g. placing and length of the study activities)

The extent of study activities initiated by the study programme was adequate

The examination plans were announced to the students in sufficiently good time

The information about practical conditions (cancellations, classroom changes, mandatory books, enrolment deadlines, etc.) was adequate.

Throughout the semester I felt well informed about...
- ... extraordinary events relevant for study work (for instance relevant guest lectures, inaugural lectures...)

Throughout the semester I felt well informed about...
- ... political conditions including the study board's work (student representatives, meeting time...)

Throughout the semester I felt well informed about...
- ... social activities in connection with the university (Friday bar, student parties etc.)

The physical framework for teaching was good (classrooms, computers, AV-equipment, laboratories, etc.)

IT-facilities and services were good (for instance intranet/electronic conferences/newsgroups, home access to relevant materials and homepages, etc.)

Moodle worked well

Socially, the semester/group worked very well
